Algorithm to Code

Similarity and/or Difference Euclid Algorithm

SIMILARITY?

```
2 numbers
set min of 2 numbers to lower
set max of 2 numbers to upper

repeat until lower = 0
     repeat subtract upper - lower until result < lower
          lower := result
          upper := lower

GCD := upper
```

```
a, b ← numbers where a >= b

    divisor ← a / b
    remainder ← a / b
    a ← b
b ← reminder
loop until remainder = 0

if remainder = 0, divisor ← b
```

DIFFERENCE?
